I Avvertenze e note di sicurezza

- E** Leer detenidamente estas instrucciones de montaje antes de cualquier uso y conservarlas después de la instalación.

El no respetar las instrucciones de montaje, uso y especificaciones técnicas del artículo, así como excederse en los rangos de uso máximos especificados (pesos, etc...), significará la exclusión de la Política de Garantía y de Servicio Postventa de Persianas Roma.

Antes de proceder a la instalación, asegúrese de que cuenta con todas las piezas según el sistema elegido.

- GB** Read these assembly instructions carefully before use and keep them after installation.

Failing to follow the assembly instructions, use instructions and technical specifications of the product, as well as surpassing the specified maximum range (weight, etc.) will void the Guarantee Policy and After-Sales Service of Persianas Roma.

Before installation, make sure you have all the parts for the system you have chosen.

- F** Veuillez lire attentivement ces instructions de montage avant son utilisation et conservez-les après l'installation.

Le non respect des instructions de montage, utilisation et spécifications techniques de l'article, ainsi comme dépasser les rangs d'utilisations maximums spécifiés (poids, etc...), sera motif d'exclusion de la Politique de Garantie et Service Après-vente de Persianas Roma.

Avant de procéder à l'installation, veuillez à ce qu'il ne manque aucune pièce selon le système choisi.

- I** Leggere attentamente il presente manuale contenente le istruzioni di montaggio prima di procedere all'uso. Conservare il manuale per riferimento futuro.

Il mancato rispetto delle istruzioni, dell'uso corretto e delle specifiche tecniche così come delle misure massime indicate (peso,...), implicherà l'esclusione dalla Politica di Garanzia e dal Servizio Postvendita di Persianas Roma.

Prima di procedere con l'installazione, verificare di avere tutti i pezzi del sistema desiderato.

NOTA: Las ondas en V pueden aparecer en sistemas de grandes dimensiones; como consecuencia de la flexión que puede hacer el conjunto del cajón debido al peso. Con el paso del tiempo y de los ciclos, estas ondas pueden acentuarse, llegando a quedar marcadas en la lona. De igual forma, se pueden crear ciertas arrugas en los laterales del paño, justo en la zona de unión con la cremallera, por el cosido de la misma. Estos desperfectos de la lona son solamente estéticos y no afectan al funcionamiento del sistema.

NOTE: V-waves can appear in large-dimension systems, as a consequence of the potential movement of the box assembly due to the weight. With the passage of time and cycles, these waves can become more pronounced, even becoming marked on the canvas. Similarly, some wrinkles may appear on the sides of the cloth, in the area where it joins the zipper, due to the stitching of the zipper. This damage to the canvas is purely aesthetic and does not affect the performance of the system.

REMARQUE : Des ondes en V peuvent se produire dans les grands systèmes, en raison de la déflexion que l'assemblage de la boîte peut faire à cause du poids. Avec le passage du temps et des cycles, ces ondulations peuvent devenir plus prononcées, voire marquées sur la toile. De même, quelques plis peuvent être créés sur les côtés du tissu, juste à l'endroit où il rejoint la fermeture éclair, en raison de la couture de cette dernière. Ces dommages sur la toile sont uniquement esthétiques et n'affectent pas le fonctionnement du système.

NOTE: V-waves can appear in large-dimension systems, as a consequence of the potential movement of the box assembly due to the weight. With the passage of time and cycles, these waves can become more pronounced, even becoming marked on the canvas. Similarly, some wrinkles may appear on the sides of the cloth, in the area where it joins the zipper, due to the stitching of the zipper. This damage to the canvas is purely aesthetic and does not affect the performance of the system.

Preparación de componentes Hardware preparation

Préparation de composants • Preparazione dei componenti

E Paso 1. Realizar el corte en ambos extremos del perfil.

F 1. Réaliser la découpe sur les deux extrémités du profil.

GB Step 1. Cut on both sides of the profile.

I Fase 1. Effettuare il taglio su entrambe le estremità del profilo.

04 Montaje en fábrica [®] Factory assembly Montage en usine • Montaggio in fabbrica

E Paso 1. Montaje de la lona en el tubo.

GB Step 1. Canvas assembly in the tube..

F 1. Montage de toile dans le tube.

I Fase 1. Montaje de la lona nel tubo.

Ø47

*Limpiar con un paño y alcohol de quemar la zona del tubo donde se pegará la cinta adhesiva a doble cara extrafuerte. Dejar secar el alcohol. Pegar la cinta al tubo, presionándola firmemente, y evitando que atrape burbujas. Pegar el extremo de la lona que no tiene agujero cosido a la cinta adhesiva, cuidando que la lona quede perfectamente alineada con el tubo, para que la lona enrolle recta sin desviarse a ningún lado.

*Clean the area of the tube where the extra strong double-sided adhesive tape will be stuck with a cloth and methylated spirits. Allow the alcohol to dry. Stick the tape to the tube, pressing it firmly and preventing it from catching bubbles. Glue the end of the tarpaulin that does not have a sewn hole to the adhesive tape, making sure that the tarpaulin is perfectly aligned with the tube, so that the tarpaulin rolls up straight without deviating to any side.

*Nettoyez la zone du tube où le ruban adhésif double face extra-fort sera collé avec un chiffon et de l'alcool à brûler. Laissez sécher l'alcool. Collez le ruban sur le tube en le pressant fermement et en évitant qu'il ne fasse des bulles. Collez l'extrémité de la bâche qui n'a pas de trou cousu sur le ruban adhésif, en veillant à ce que la bâche soit parfaitement alignée avec le tube, de manière à ce que la bâche s'enroule en ligne droite sans dévier d'un côté ou de l'autre.

*Pulire l'area del tubo in cui verrà incollato il nastro biadesivo extra forte con un panno e alcol metilico. Lasciare asciugare l'alcol. Incollare il nastro al tubo, premendo con forza ed evitando che si formino bolle d'aria. Incollare l'estremità del telone che non ha un foro cucito al nastro adesivo, assicurandosi che il telone sia perfettamente allineato con il tubo, in modo che il telone si arrotoli dritto senza deviare da nessun lato.

E Paso 2. Introducir el felpudo en la barra de carga.

GB Step 2. Insert the brush seal onto the charge profile.

F 2. Placer le tapis sur le profil barre charge.

I Fase 2. Introdurre la spazzola a listello nel profilo della barra di carico.

E Paso 3. Montaje Barra Refuerzo Ø22. Introducir barra refuerzo, ver tabla de descuentos.

GB Step 3. Ø22 reinforcement rod assembly. Insert the reinforcement rod, see cutting table.

F 3. Montage barre renfort Ø22. Insérer barre renfort, voir tableau de remises.

I Fase 3. Montaggio della barra di rinforzo Ø22. Inserire la barra di rinforzo (vedi Tabella delle dimensioni).

E Paso 5. Montaje tapas perfil guía.

GB Step 5. Assembly of guide profile caps.

F 5. Assemblage des couvercles des rails de guidage.

I Fase 5. Montaggio dei coperchi delle guide.

E Paso6. Montaje de los testers. Introducir el felpudo, situar los testers y atornillar.

GB Step 6. Assembly of the end pieces. Insert the doormat, position the end caps and screw on.

F 6. Mise en place des embouts. Insérer le paillason, positionner les embouts et visser

I Fase 6. Montaggio delle parti terminali. Inserire il tappetino, posizionare le estremità e avvitare.

05 Montaje en obra On-site assembly Montage sur site • Montaggio in opera

E Paso1 . Atornillar los clips de fijación a la pared y clipar la guía.

GB Step 1. Screw the fastening clips to the wall and clip the the guide.

F 1. Visser les clips de fixation au mur et clipser le guide.

I Fase 1. Avvitare i clip di fissaggio al muro e agganciare la guida.

E Paso2. Insertar las tapas de la barra de carga en las guías.

GB Step 2. Insert the load bar covers into the guides.

F 2. Insérer les couvercles de la barre de charge dans les guides

I Fase 2. Inserire le coperture della barra di carico nelle guide

E Paso3. Ensamblar el cajón. Introducir las patas de los testeros en las guías.

GB Step 3. Assemble the box. Insert the side legs of the into the guides.

F 3. Assembler le coffre. Introduire les pieds des flasques dans les guide.

I Fase 3. Assemblare il cassetto. Inserire i piedini laterali nelle guide.

E Paso 4. Montaje del eje. Situar las tuercas en los testeros. Introducir el eje en el interior del cajón deslizando los soportes entre la guía de los testeros. Atornillar los soportes.

GB Step 4. *Shaft assembly. Place the nuts on the sides. Insert the axis into the inside of the box by sliding between the guide of the sides. Screw the supports.*

M4
DIN562

F 4.

Assemblage de la tige. Monter les écrous dans les flasques. Insérer la tige à l'intérieur du coffre en faisant glisser les supports entre les guides des flasques. Visser les supports.

I Fase 4. *Assemblaggio dell'albero. Posizionare i dadi sulle estremità. Inserire l'albero all'interno del cassetto facendo scorrere i supporti tra le guide delle estremità. Avvitare i supporti.*

M4x10
DIN7985

E Paso 5. Introducir el perfil registro en el cajón y atornillar.

GB Step 5. *Insert the register profile into the box and screw it in.*

F 5.

Insérez le profilé de registre dans le tiroir et visser.

I Fase 5. *Inserire il profilo del registro nel cassetto e avvitare.*
